

1. International SCD CEV Talent Camp

in
Luxembourg

BULLETIN 1

Dear Federation member.

It is with great pride and honour that within my first year as President that I and my fellow Board members can present to you the SCD Volleyball Development Camps to be held in Luxembourg and Malta. These developments have arisen from many months of preparation by our Project Manager Detlev Schonberg and the SCD Executive Committee.

We have made an SCD application to the FIVB Development fund on your behalf and we have initially been accepted for consideration. Our application shall enable us as an organisation to support participating Federations and the host organisers. We have based our application on the desire to increase participation at youth level through the encouragement and development of our youngest athletes, coaches and officials. Furthermore we have strengthened our application to FIVB by including such areas as the spirit of fair play, anti-doping and health and nutrition, all of which are essential elements being presented at both camps. This is a holistic approach to volleyball encompassing the need for us to grow our participation in SCD competition and support our European Confederation.

As your Executive Committee we have been given the trust of your Federation to do our best for the Small Countries Division, to show leadership and direction. I truly believe we have just begun the process of development and change. Our beach and volleyball camps are just the start of something we have all been hoping for. This is grassroot delivery which if nurtured by us all shall create the athletes, coaches and officials of your Federation and our future SCD competitions.

It is vital that we all engage, each and every Federation! The success of our camps will demonstrate that we are striving to grow volleyball within our organisation and once we begin to demonstrate development we can look for more support from CEV and FIVB.

I urge you to seriously support this new and exciting initiative, begin small, look for sponsorship within your own country for your youngest players to attend, Government projects which would financially benefit travelling athletes at these age groups, engage their parents to the benefits of such camps. All of this is possible; all we need is some faith, determination and desire to make these camps happen.

Be involved, look to the future and find a way my friends to get your Federation to participate and support your Small Countries Division.

Margaret Ann Fleming
President Small Countries Division
